

## SOLITAIRE ENGAGEMENT RING

A solitaire engagement ring is a classic and timeless choice for a proposal. It typically features a single, dazzling diamond set in a simple band made of a precious metal such as gold or platinum. The diamond is usually held in place by prongs that allow for maximum light to pass through and enhance its brilliance and fire.

## ROSE GOLD WEDDING BAND FOR WOMEN

- A rose gold wedding band for women is a beautiful and romantic choice for a bride. Rose gold is a warm and feminine metal that has become increasingly popular in recent years. It is made by combining gold with copper, which gives it a soft pink hue. A rose gold wedding band for women may be made entirely of rose gold or may feature diamonds or other precious stones for added sparkle and elegance. The band itself can vary in thickness and width, with some designs featuring intricate detailing or engraved patterns

## CLASSIC WEDDING RINGS

- Classic wedding rings are timeless and traditional, representing the eternal love and commitment between two people. These rings are typically made of precious metals such as gold, platinum, or silver, and feature a simple yet elegant design. The most common style of classic wedding rings is a plain band, which may be rounded or flat, and may come in a variety of widths to suit personal preference. Classic wedding rings may also feature subtle detailing,

## WHITE GOLD WEDDING BANDS

- White gold wedding bands are a popular and modern choice for couples who want a stylish and versatile ring. White gold is an alloy made by combining pure gold with other metals such as nickel, palladium, or silver. This results in a metal that has a white or silver appearance, similar to platinum, but is more affordable. White gold wedding bands can come in a variety of styles, including simple bands, bands with diamonds or other precious stones, and bands with intricate detailing or engraved patterns
