Best manga to read on readmha

There are a number of mangas available to read on the internet but if you are looking for the best names, then we got you covered. Below are the details of some of the best mangas which you should definitely read out to get a deep impression. So they are as follows-

1. Yami no Koe (Voices in the Dark)- The author of this manga is Junti Ito, its genre is Horror and its status is complete. Whenever someone talks about horror manga, they can never miss out on one of its masters- Junti Ito. This mangaka is known to have a very unique way of drawing. Just like Fuan No Tane, Yami no Koe is also a collection of short stories and some of them are also linked by a character. Some of the other masterpieces of him are 'Tomie' (the story of a immortal beautiful girl-monster), The Junji Ito Horror Comic Collection, 'Uzumaki' (a story of a village which is cursed by ancient civilization and marked with the spiral) and 'Hellstar Remina' (story of evil and a carnivorous planet).
2. Fuan No Tane (Seeds of Anxiety)- The author of this manga is Masaaki Nakayama and its genre is Horror. It was released in the year 2007 and its status is complete.

If you are someone who has watched and liked the movie 'The Grudge/Ju-on', then you are going to love this manga. It is basically a smorgasbord of the short story where each story features a disturbing and an enigmatic ghost or can say an urban legend. This is definitely one of the best to read on **readmha**.

3. Otoyomegatari (The Brides Story)- The author of this manga is Kaoru Mori and its genre is Romance and Historical Drama. It was released in 2008 and its status is on-going.

Well, Koaru Mori is amazingly famous for her amazing writing style and high details of drawing, especially in the background work and clothes. She also has a deep knowledge of the cultural presentation in all of her stories which makes them stand out.

Now, this manga is the story of the late 19th century, Central-Asia, mainly Turkey, and explains what it was like to be a married woman at that time (and unmarried ones as well). This story basically follows many characters but one of the most important ones are Amir Halgal, a 20-year-old bride, and Karluk Eihon, Amir's 12-year old husband. And yes this age gap is quite interesting to look at and see how they both overcome it.

Bokurano (Ours)- Its author is Mohiro Kitoh and it's of the genre Mecha, Psychological Suspense and Drama. It was released in 2003 and it is a very fun story to read out as it's all about imagination.
